

# BPC-157 10mg Easy Pen

## REGENERATIVE PEPTIDE FOR HEALING, INFLAMMATION & GUT REPAIR

Easy Pen, Oral

BPC-157 is a synthetic peptide derived from gastric proteins, known for its powerful regenerative potential. It promotes healing in tendons, ligaments, muscles, nerves, and the gut by supporting blood vessel formation, fibroblast activity, and anti-inflammatory processes.

Unlike conventional drugs, BPC-157 shows systemic healing effects without immune suppression. Studies suggest benefits for tendon tears, ulcers, and gut issues like leaky gut and Crohn's disease. With a strong safety profile, it's being used in clinical research and wellness programs to accelerate recovery and reduce inflammation.

### Key Potential Benefits

- **Accelerated Healing** – Enhances tissue repair and regeneration, aiding recovery from injuries, wounds, and surgeries.
- **Joint & Muscle Repair** – Supports healing of tendons, ligaments, and muscles, making it ideal for athletes and active individuals.
- **Gut Health Support** – Protects and repairs the gastrointestinal lining, helping with conditions like ulcers and leaky gut syndrome.
- **Reduced Inflammation** – Helps lower systemic inflammation, improving overall health and recovery time.
- **Brain & Nerve Protection** – Supports cognitive function and neuroprotection, potentially aiding in brain injury recovery.
- **Cardiovascular Health** – Promotes better blood flow and protect the heart and blood vessels.
- **Immune System Support** – Enhances the body's natural defense mechanisms for overall well-being.

#### Technical Information:

**CAS Number:** 137525-51-0

**PubChem CID:** [9941957](#)

**Formula:** C62H98N16O22

#### Specifications:

- 0.05mg per click.
- Up to 60 clicks per dose.
- Includes 4 needles and one adjustable dosage pre-mixed pen.
