**ACCELERATE TISSUE RECOVERY,  
SUPPORT GUT INTEGRITY AND REDUCE  
INFLAMMATION NATURALLY**

Oral, Easy Pen

BPC-157 is a synthetic peptide studied for its powerful regenerative properties across muscles, tendons, ligaments, nerves, and the gut. Derived from a protein in gastric juice, it promotes healing by boosting angiogenesis, fibroblast activity, and nitric oxide signalling while reducing inflammation.

Research suggests it accelerates tissue repair systemically and protects the GI tract, showing promise in injuries, leaky gut, and inflammation. With a strong safety profile, BPC-157 is under study in recovery, post-surgery healing, and wellness protocols.

## Key Potential Benefits

- **Accelerated Healing** – Enhances tissue repair and regeneration, aiding recovery from injuries, wounds, and surgeries.
- **Joint & Muscle Repair** – Supports healing of tendons, ligaments, and muscles, making it ideal for athletes and active individuals.
- **Gut Health Support** – Protects and repairs the gastrointestinal lining, helping with conditions like ulcers and leaky gut syndrome.
- **Reduced Inflammation** – Helps lower systemic inflammation, improving overall health and recovery time.
- **Brain & Nerve Protection** – Supports cognitive function and neuroprotection, potentially aiding in brain injury recovery.
- **Cardiovascular Health** – Promotes better blood flow and protect the heart and blood vessels.
- **Immune System Support** – Enhances the body's natural defense mechanisms for overall well-being.

### Technical Information :

CAS Number: 137525-51-0

PubChem CID: [9941957](#)

Formula: C62H98N16O22

### Specifications:

- 500mcg
- 60 Capsules
